

## A new music resonates in the Rotary house

**Bräunlingen.** January 2023 - Rotary, member of Vehicle Service Group (VSG) and leader in the motor vehicle equipment sector, is launching a range of furniture dedicated to workshops.

The Tune Series - *The Sound of Quality* - is Rotary's new offering for car, motorbike and bodywork workshops to optimally reorganise their work areas and ensure safe and dynamic operations.

The series represents a real novelty for the Rotary brand, known mainly for automotive workshop equipment. It is a challenge it has taken on in order to continue to expand its product portfolio and consolidate itself as a player capable of meeting the needs of the market.

The range is presented with ten furniture compositions of linear and elegant design with a wide application and efficiency in the most diverse work spaces. They start with compositions with a minimum height of 1.2 metres that extend modularly with drawer units, trolleys, and cabinets, up to a maximum of 2.72 metres with upward extension with the addition of wall panels.

Angela Cinelli, Product Manager Spare Parts & Accessories: *"With the introduction of the Tune Series, we want to offer our customers a one-stop shopping solution, where furniture in an harmonious way complements our product range that has always represented us. Innovation and tradition, the undisputed cornerstones of our history, play a new melody together. In fact, we thought of presenting a product that is new to us, but with simple and functional lines that confirm the professionalism of Made in Italy."*

More information on the Tune Series can be found on the landing page - [tune-series.rotarylif.eu](https://tune-series.rotarylif.eu).

## About Rotary

As part of the Vehicle Service Group (VSG), one of the world's leading automotive equipment companies, Rotary has been providing car lifting solutions with innovative features since 1925. Rotary has then extended its portfolio with products for the areas of truck lifting, tire service and diagnostics, to be able to cover the entire range of workshop needs. Located in Bräunlingen (Germany), it's one of the leading brands in the VSG EMEA division. For more information, visit [www.rotarylif.eu](http://www.rotarylif.eu).

## About Vehicle Service Group

Part of Dover Corporation's Engineered Systems segment, VSG is a strong, diverse and dynamic global leader in the vehicle service industry. It comprises 8 major vehicle lifting, wheel service and collision repair brands: Rotary, Ravaglioli, Space, Chief, Forward, Direct-Lift, Revolution and Hanmecson. Headquartered in Downers Grove, Illinois, VSG has operations worldwide, including ISO9001 certified manufacturing centers in North America, Europe and Asia. Additional information is available at [www.vsgdover.com](http://www.vsgdover.com).
